

CSS

4. Interactief > Website

```
body {
  background-color: lightblue;
}

h1 {
  color: white;
  text-align: center;
}

p {
  font-family: verdana;
  font-size: 20px;
}
```

HTML5 wordt in combinatie met CSS (Cascading Style Sheets) gebruikt om de opmaak en de vorm te

```
<!DOCTYPE html>
<html>
<body>
<!--Specify colors using RGB values-->
<div style="background-color:rgb(255, 0, 0);">rgb(255, 0, 0)</div>
<div style="background-color:rgb(0, 255, 0);">rgb(0, 255, 0)</div>
<div style="background-color:rgb(0, 0, 255);">rgb(0, 0, 255)</div>
<div style="background-color:rgb(255, 165, 0);">rgb(255, 165, 0)</div>
<div style="background-color:rgb(255, 99, 255);">rgb(255, 99, 255)</div>
</body>
</html>
```
